PROFILE

Frontend Developer with expertise in React.js, Next.js, and Tailwind CSS. Conceptualized and delivered multiple projects integrating APIs and modern UI frameworks. Collaborated with cross-functional teams ensuring every project meets user needs and enhances overall experience. Proficient in designing UI in Figma and developing them with Next.js and Tailwind CSS.

WORK EXPERIENCE

Frontend Developer

LUGO [↗](#)

06/2025 - Present

- Developed 10+ responsive UI pages, collaborating with design and development teams to enhance user experience.
- Designed User Interfaces (UIs) in Figma and developed them with Next.js and Tailwind CSS.
- Contributed to frontend architecture by creating reusable components, reducing future development time.

Freelancer

Chatrapur Women's Degree College [↗](#)

02/2025

- Contributed to chatrapurwomensdegreecollege.org as a voluntary contributor.
- Assisted with uploading images and new PDFs, and updated website content via HTML/CSS in cPanel to support the college's website maintenance and presentation needs.

PROJECT

Resumate - AI Resume Analyzer | [Live](#)

08/2025

- Developed a web app using **React**, **TypeScript**, and **Puter.js** that allows users to upload resumes and receive AI-powered ATS feedback to job descriptions.
- Implemented serverless authentication, storage, and AI feedback using Puter.js and managed global state with **Zustand**.

Cosmos - animated web app | [Live](#)

05/2025

- Developed an interactive 3D experience with **Three.js** and **Spline**, featuring animated models and immersive parallax effects.
- Integrated NASA Images API to enable real-time search and display of space media.
- Built a responsive, modular React frontend with Tailwind CSS and Framer Motion for smooth navigation and engaging UI/UX.
